DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 34-50 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 34-51 of copending Application No. 10/806,808 and claims 34-54 of copending Application No. 10/806,908. Although the conflicting claims are not identical, they are not patentably distinct from each other because claims 34-50 of the instant application are anticipated by claims 34-51 of copending Application No. 10/806,808 and claims 34-54 of copending Application No. 10/806,908. Each set of claims include an ionization enclosure including a passageway, means to maintain the enclosure at an ambient pressure of greater than 100 mTorr, a source of laser energy to desorb and ionize the analyte, and a means for directing the portion into the passageway.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:
